

THE CONTENT ENGINE

Your expertise posts daily. *You approve it in minutes.*

A done-for-you LinkedIn content system for health coaches and clinicians. I built it to rebuild my own presence after leaving medicine. Now it runs my account every day, and it can run yours.

REAL POSTS, REAL NUMBERS, FROM MY OWN ACCOUNT

14,383
IMPRESSIONS

"My parents flew 13 hours to visit me in Canada. I spent 6 weeks rehearsing how to say 'I'm not a doctor here.'"

4,885
IMPRESSIONS

"I spent \$18,000 and 11 years becoming a doctor."

4,576
IMPRESSIONS

"Eight years of medical school. Three years of residency in India. Two failed CaRMS cycles in Canada."

Account average is roughly 600 impressions per post. The system exists to find and repeat what beats that.

HOW IT WORKS

1 We capture your voice

One interview about your work, your clients, and the stories only you can tell. That becomes a voice profile the engine writes from. No templates, no borrowed opinions.

2 The engine drafts, a quality gate filters

Every post is written in your voice, then scored against a strict quality gate before you ever see it. Anything that reads like AI filler gets rewritten or killed.

3 It learns from your numbers

The system tracks what your audience responds to and feeds that back into the next week's writing. You approve posts in a few minutes a day. That is your whole job.
